

Applicants are submitting herewith a copy of the International Search Report, which issued on International Application number PCT/GB97/02898, of which the parent application of the present application is a continuation. All of the publications cited in the International Search Report are listed on the attached Information Disclosure Statement.

Applicants respectfully assert that all amendments are fairly based on the specification, and respectfully request their entry.

Respectfully submitted,

  
Royal N. Ronning, Jr. 32,529

**Claims (marked up copy showing amendments)**

**[Claims]**

What is claimed is:

28. (once amended) A method as claimed in claim 26[ or claim 27] wherein a vasodilator drug is coadministered to the subject.

10007323-120504  
FOUO "SEE 2000"

**Claims (clean version encompassing amendments)**

What is claimed is:

1. A combined preparation for simultaneous, separate or sequential use as a contrast agent in ultrasound imaging, said preparation comprising:
  - i) an injectable aqueous medium having gas dispersed therein; and
  - ii) a composition comprising a diffusible component capable of diffusion *in vivo* into said dispersed gas so as at least transiently to increase the size thereof.
26. A method of generating enhanced images of a human or non-human animal subject which comprises the steps of:
  - i) injecting a physiologically acceptable aqueous medium having gas dispersed therein into the vascular system of said subject;
  - ii) before, during or after injection of said aqueous medium administering to said subject a composition comprising a diffusible component capable of diffusion *in vivo* into said dispersed gas so as at least transiently to increase the size thereof; and
  - iii) generating an ultrasound image of at least a part of said subject.
28. (once amended) A method as claimed in claim 26 wherein a vasodilator drug is coadministered to the subject.

10007325-120501

29. A method as claimed in claim 28 wherein said vasodilator drug is adenosine.
